

Year Six Geography knowledge organiser- Our world in the future

Key vocabulary

Physical geography	This part of geography is about the earth's land masses, oceans, climate, and where plants and animal species are located.
Human geography	This part of geography is about how human activity affects the earth's surface.
Man-made	Something that is made or formed by human beings; not natural.
Natural	Something that is produced by nature; not made by humans.
Region	A large space or area.

Questions to consider:

- What in our region should we preserve for the future? This could be schools, emergency services, factories and parks. How will these things impact upon our environment? Pollution, crime rates and education.
- What is your vision for the future, for your home and local area?
- What type of homeing would you like to see in the future? Will your home be more environmentally friendly than houses today?
- What is your local community like now? How might this change for the better or worse in the future?

Homes in the future
